PROFESSIONAL EXPERIENCE

International Technical Support Specialist (Tier 2) <i>Converge Global Networks</i>	November 2023 – Present <i>Pune, India (US Shift Night Rotation)</i>
---	---

- Diagnose, troubleshoot, and resolve complex corporate client networking, VPN configurations, and domain authentication failures via remote support channels.
- Maintain an average handle time (AHT) under 14 minutes for highly technical network route anomalies while handling a volume of 25+ complex interactions daily.
- Author comprehensive knowledge base articles for the Tier-1 desk to standardize self-remediation steps for recurring Windows Active Directory configuration bugs.
- Collaborated closely with internal product infrastructure engineers to diagnose and patches software stability glitches affecting over 40 global multi-national client servers.

Technical Support Associate <i>Synergy Tech BPO Solutions</i>	September 2021 – October 2023 <i>Pune, India (EMEA Shift Rotation)</i>
---	---

- Served as the primary technical point of contact for international business users facing enterprise application interface errors and access token expirations.
- Logged and prioritized critical corporate incidents on ServiceNow, maintaining a 98.2% compliance rate against rigid First Contact Resolution (FCR) contractual guidelines.
- Consistently commended by EMEA operations delivery managers for achieving the highest individual tier resolution score across 3 successive operational quarters.
