Professional Experience

Senior IT Support Engineer

March 2022 – Present

Apex Technology Solutions – Noida, India

- Provide high-level technical support for hardware, OS configuration, and local server setups across the corporate network.
- Write simple automated Python and Bash scripts to handle daily system maintenance, reducing manual employee account setups.
- Maintain internal company inventory using Excel spreadsheets and basic relational database queries.
- Collaborate with engineering teams to flag recurring software infrastructure glitches and bugs.

IT Helpdesk Technician

June 2019 – February 2022

Innova IT Hub – Greater Noida, India

- Managed incoming user queries and tickets regarding system crashes, access permissions, and networking issues.
- Configured employee workstations, installed relevant developer software, and handled security patch deployments.
- Documented standard operating procedures (SOPs) for the IT support team to resolve common configuration tickets faster.

Education

Bachelor of Science (B.Sc.) in Information Technology

2015 – 2018

Amity University – Noida, India
