Possesses strong analytical capabilities, sharp documentation skills, and a thorough understanding of corporate data processing standards. Eager to leverage exceptional speed, accuracy, and background in back-office workflow automation to contribute to business process efficiency and SLA compliance metrics.

CORE COMPETENCIES

Operational Strengths: Data Entry & Verification, Transaction Processing, Document Back-Office Management, SLA Compliance, Quality Assurance.

Technical & Software Proficiency: Microsoft Excel (VLOOKUP, Pivot Tables), MS Word, Outlook, Basic SQL Queries, CRM Data Tools.

EDUCATION

Bachelor of Commerce (B.Com., Hons.)

2023 – 2026

Delhi University (Shaheed Bhagat Singh College)

New Delhi, India

- Graduated with a First Class division; focused heavily on Business Organization, Computer Applications in Business, and Financial Accounting.
- Maintained a 98% accuracy record in high-volume laboratory assignments involving corporate auditing simulations.

INTERNSHIP EXPERIENCE

Operations & Data Intern

May 2025 – July 2025

Vanguard Business Services

Gurugram, India

- Processed and verified over 150+ commercial vendor invoices daily against system purchase orders, reducing internal compliance discrepancies by 15%.
- Maintained, updated, and audited master data tables across the company's internal cloud database infrastructure using Microsoft Excel.
- Collaborated with senior process managers to clear out a legacy backlogged pipeline of outstanding client account records ahead of the quarterly audit schedule.
- Recognized by team lead for achieving a consistent 99.4% data precision rate throughout the 12-week tenure.

KEY ACADEMIC PROJECTS

E-Commerce Data Analysis & Mapping Project

Academic Period

- Led a team of three to aggregate and clean a sample dataset of 5,000+ online consumer complaints.
- Categorized transaction errors and mapped recurring operational failure modes, delivering a project presentation that simulated business process optimization strategies.
