PROFESSIONAL SUMMARY

Analytical Business Analyst with over 4 years of corporate experience gathering requirements, optimizing corporate software frameworks, and translating data landscapes into actionable strategic roadmaps. Proven success working closely with international product owners, drafting comprehensive BRDs/FRDs, and executing visualization projects to uncover critical workflow bottlenecks.

TECHNICAL CORE

Methodologies:	Agile/Scrum, Software Development Life Cycle (SDLC), Requirements Gathering, Gap Analysis
Documentation:	Business Requirement Documents (BRD), Functional Requirement Documents (FRD), User Stories, Use Case Diagrams
Tools & Data:	Jira, Confluence, Microsoft Visio, Advanced Excel, SQL (Queries, Joins), Tableau, Power BI (Basic)

PROFESSIONAL EXPERIENCE

Business Analyst <i>Synergy Global Consulting</i>	August 2023 – Present <i>Bengaluru, India</i>
---	--

- Facilitate discovery workshops with multi-national business owners to define requirements for an automated warehouse management tool, producing 30+ validated user stories per sprint cycle.
- Drafted and maintained highly detailed BRDs and FRDs that reduced engineering rework and misaligned scope definitions by 18%.
- Designed interactive visualization tracking dashboards in Tableau, giving operations executives visibility into daily supply chain performance KPIs.
- Formulate user acceptance testing (UAT) scripts and coordinate real-time testing windows with business end-users to ensure clean software releases.

Junior Business Analyst <i>Aura Software Tech</i>	July 2021 – July 2023 <i>Mysuru, India</i>
---	---

- Mapped "As-Is" and "To-Be" internal operations processes using Microsoft Visio, helping stakeholders isolate and fix duplicate communication paths.
- Executed complex relational database SQL queries to pull clean client usage data for ad-hoc financial forecasting reports.
- Managed the product backlog inside Jira under the direction of the Lead Product Manager, clarifying user criteria constraints.

EDUCATION

Master of Business Administration (MBA) – Systems & Analytics <i>Symbiosis Institute of Business Management</i>	2019 – 2021 <i>Pune, India</i>
