PROFESSIONAL SUMMARY

Performance-driven DevOps Engineer with over 5 years of experience automating, securing, and scaling cloud infrastructure landscapes. Specialized in Infrastructure as Code (IaC), container orchestration architectures, and robust CI/CD pipeline engineering. Proven ability to bridge software production gaps, minimizing deployment lead times while maximizing microservice system resilience and observability.

TECHNICAL SKILLSET

Cloud Platforms: Amazon Web Services (AWS - EC2, EKS, S3, RDS, IAM, VPC), Microsoft Azure

Tools & Execution: Docker, Kubernetes (EKS), Terraform, Ansible, Jenkins, GitHub Actions

Observability: Prometheus, Grafana, ELK Stack (Elasticsearch, Logstash, Kibana)

Scripting & Core: Python, Bash, Linux Systems Administration, Git, Nginx

PROFESSIONAL EXPERIENCE

DevOps Systems Engineer

January 2023 – Present

CloudScale Infrastructure Labs

Pune, India

- Architected and managed multi-region AWS infrastructure tracking configurations using Terraform, reducing engineering staging environment provisioning cycles by 50%.
- Spearheaded the migration of 45+ microservices to Amazon EKS (Kubernetes), optimizing horizontal pod autoscaling rules to sustain a 3x holiday traffic surge with zero degradation.
- Overhauled automated CI/CD deployment logic via GitHub Actions and Jenkins, reducing cluster code build-to-ship pipeline latency from 24 minutes down to 8 minutes.
- Configured centralized application monitoring topology using Prometheus and Grafana, establishing active operational alert loops that lowered Mean Time to Resolution (MTTR) by 35%.

Cloud Infrastructure Engineer

July 2021 – December 2022

AlphaTech Solutions

Mumbai, India

- Automated distributed system configurations and OS patch distributions across 120+ EC2 Linux server targets using Ansible playbooks.
- Managed secure IAM user policies, VPC network security matrices, and automated snapshot backup schedules to align tracking landscapes with SOC2 compliance data standards.
- Collaborated with frontend and backend squads to maintain structural Docker container configurations, minimizing runtime vulnerabilities.

EDUCATION & CERTIFICATIONS

B.E. in Electronics & Telecommunication Engineering

2017 – 2021

Army Institute of Technology (AIT)

Pune, India

Professional Certifications:

- AWS Certified Solutions Architect – Professional
- Certified Kubernetes Administrator (CKA)
