

Vikram Malhotra

Senior Full Stack Developer

Whitefield, Bengaluru, India | +91 98888 77777 | vikram.malhotra.dev@email.com | github.com/v-malhotra-codes

PROFILE SUMMARY

Versatile Full Stack Developer with over 6 years of experience building, scaling, and maintaining robust web architectures. Expert in frontend ecosystem transitions and microservices architecture, with deep operational mastery over React, Node.js, and cloud ecosystems. Pragmatic problem solver focused on shipping clean, documented code and building intuitive user experiences that scale cleanly with business logic.

TECHNICAL CORE

Frontend: React.js, Next.js, TypeScript, Redux Toolkit, Tailwind CSS, HTML5/CSS3
Backend & DB: Node.js, Express, Python, Django, PostgreSQL, MongoDB, Redis
DevOps & Tools: AWS (EC2, S3, RDS), Docker, CI/CD (GitHub Actions), Git, Jest, Postman

PROFESSIONAL EXPERIENCE

Senior Full Stack Engineer

Oct 2022 – Present

PixelStream Technologies

Bengaluru, India

- Lead an engineering squad of 5 to redesign and scale a high-traffic B2B SaaS dashboard using Next.js and Node.js microservices, cutting initial page-load times by 42%.
- Migrated a legacy monolithic code base into isolated containerized services using Docker and AWS, maintaining 99.95% system uptime through live feature flags.
- Introduced Redis caching layers on high-frequency API endpoints, dropping database load metrics by 30%.
- Standardized internal coding workflows, driving unit testing coverage up to 85% using Jest and Supertest.

Full Stack Developer

Jan 2020 – Sept 2022

QuantOne Labs

Bengaluru, India

- Developed and launched 4 core product modules using React.js and Django, directly serving over 150k monthly active users.
- Designed interactive and responsive complex data grid views allowing users to query, filter, and export massive logistical tables seamlessly.
- Integrated secure payment gateways (Razorpay, Stripe) and decoupled authentication tokens via OAuth2 mechanisms.
- Collaborated daily with Product Managers and UI/UX designers to translate Figma design tokens into clean modular components.

Associate Software Engineer

July 2018 – Dec 2019

ZetaSystem Solutions

Mysuru, India

- Owned bug fixing, layout refinements, and documentation cycles across multiple client-facing web portals.
- Optimized global application state data layers using Redux, completely eliminating cross-component prop-drilling errors.

EDUCATION

B.E. in Computer Science & Engineering

Visvesvaraya Technological University (VTU)

2014 – 2018

Karnataka, India
